TERNA PETER KPENSALEN

Software Developer & Cybersecurity Enthusiast

PROFILE

Software Developer, Project Manager, and Cybersecurity Enthusiast with experience in backend development, full-stack project coordination, and web application security. Contribute to and oversee frontend and backend development for Salem-X, combining hands-on engineering with team coordination. Background in technical mentoring and digital security training.

EXPERIENCE

Project Manager
Salem-X | Streaming Platform
salem-x.onrender.com

- Coordinate frontend and backend development, monitoring progress and keeping contributors aligned on project priorities.
- Contribute directly to frontend and backend implementation and support integration across the platform.
- Work with developers to resolve implementation issues and track features through development and testing.

Fellow — 02-2026 – Present
Learn2Earn_NG (TN Macauley)

- Engage in intensive peer-to-peer (P2P) engineering sprints architecting practical full-stack solutions.
- Build resilient backend services with a primary focus on code optimization and security standards.

Cybersecurity Intern — 2025
Benue Digital Infrastructure Company (BDIC)

- Trained and sensitized over 10,000 Benue State civil servants on digital hygiene and cyber defense protocols.
- Conducted systematic web application penetration testing, vulnerability assessments, and mitigation patching.

State Ambassador (Benue State) — 2025
Codefest Africa

- Sensitized over 3,000 youths across Benue State on tech career opportunities, digital skills, and coding initiatives.
- Mobilized youth teams and mentored participants in regional hackathons and skill bootcamps.

Technical Advisor — 12-2023
Malldia Group International / Crewft Tech Teams
crewft.com/techteams

- Advised on system architecture and developed full-stack invoice generation modules using HTML, CSS, REST API and MySQL.

Technical Advisor — 03-2021
Shopping E-Commerce & Cost Calculator

- Developed dynamic real-time price estimation engines using Golang and JavaScript.
- Constructed marketplace modules for item listing, community comments, and engagement tracking.

EDUCATION

Nodos International School, Ojo, Lagos — 07-2014
WASSCE, WAEC (Lagos State, Nigeria)

Saint Francis Nursery & Primary School, Gboko — 09-2007
First School Leaving Certificate (Benue State, Nigeria)
